Subject: [REDACTED] - proposed payment -repatriation.
Attachments: SCN_0091.pdf

Dear Commissioners

You have my record of activity on your files. You will be able to see that my birth date is [REDACTED] at Alice Springs, Northern Territory.
skin colour - white. Language - Australian and Yankuytjatjara.

The devil is in your detail but what I believe will be your foundation of victims compensation reads negatively to me. I am nearing the death date of my father and when I pass no payment will be made and all best intentions of your commission will not even be my funeral legacy. My current income is an age pension bourn by the tax payers of Australia. Australia has payed dearly for incompetence.

My life has been violence, challenges and isolation - religious denial and refusal to acknowledge responsibility that was meant to be overseen by legislative authority at the period in time when I was a victim of child abuse. Religion lied to my parents and I was religious collateral.

Your proposed payment scheme fails - period.

Centrelink will be interested and your commission must present their interest in charges, taxes and relevant account, detail, the money Centrelink will claim from the victim.

I have a written contract with the [REDACTED]. Document states that when an amount is received from another source I must repay in full.

[REDACTED] Effectively your first payment is taken by the Victim of Crime Compensation Commission of N.S.W and another year passes without funds to live, buy medical, dental, and other. [REDACTED]

[REDACTED] Your proposed scheme fails

Victims reaching 70 years need SERIOUS lump sum payments from a National repayment scheme. Victim repatriation must be lump sum paid.

Your Commission paid, drawn by your Commission from the perpetrators after a judgement is delivered. We have lived a life of Hell and negativity. At 70 years we have done our penance, we did not invite the bastardry so give us what you present without "bullshit".

My daughters were children stolen, 1986. I do not know their whereabouts, currently hidden from my knowing . I have been assisted by your listed agencies, negative outcomes. Family court letter is held, not interested. A prime minister did little. Stainless steel flowers were planted in a park where crows refuse to roost. Another insult Your payment will be lost in clouds of rates taxes charges, deductions and administration. I have been turned away from your post abuse services, insulted by politicians and more.

Many years, decades, have passed since I first raised my claim of abuse and the mongrel treatment by [REDACTED] . at Broken Hill, N.S.W.

3 generations of my family have been destroyed by bastards, religion bastards and a family court, bastards Australia accommodated. Your proposed money will not allow me to provide the costs, charges, taxes, rates to survive and find my daughters

Your Commission has not set the redress that will be imposed upon religion. Liability - Who will pay, how will it be payed, a lawyers picnic - " snoughts" in the trough on the gravy train! A cry of religion having hard times, bankrupt them . [REDACTED]

[REDACTED] So, Walk a mile in my boots because I will never feel their pain!

Records are written, Determinations have been made and my time is running down, - Justice, I wait, and have waited.

Without Prejudice
