**Subject:** [REDACTED] - redress my thoughts

here is my thoughts on redress.

the mention of small amounts of money as compensation is a start but will not help in the long run.  
in nsw there are many contractors duplicating services.  
they have little ability to maintain services.  
the amount of dollars to be offered wont even buy a caravan lease on the coast.

institutions in all states do not have a good track record.

i'll take the money but i wont forgive
