Subject: REDRESS SUBMISSION.

This REDRESS submission is a public document and is not to be changed, blocked out or changed in any way.

We have a Royal Commission that is costing a substantial amount of money to investigate historical abuse because both Federal and State Governments have refused in the past to investigate and prosecute both religious and government run institutions.

Now all that can be achieved is locking up old men who have destroyed lives for decades. All governments are very slow to act and change laws to protect children and the churches and charities are now too powerful and wealthy and they successfully lobby governments and politician's and resist changes to the law.

Their lawyers manipulate the system within the current laws with few of these creeps being prosecuted. Enough is enough, make them pay Redress. Don't put it off any longer, victims have suffered for decades and everything has been manipulated in the court's, like the Ellis defense and the statute of limitations to minimize any payments.

Victim's are not getting any younger, they have had to endure a life of disgusting memories and the churches and charities and governments have resisted and cry poor and will have to be dragged kicking and screaming to pay, but pay they must.

How do you trust the current Federal Government led by Prime Minister Tony Abbott when after the Victoria'n Government's inquiry he came to the defense of Cardinal George Pell and then admitted to the media that he hadn't read the report Clergy Child Sex Abuse.

Sydney Morning Herald Tony Abbot defends Cardinal Pell's role November 14 2013.

Redress should be a National system but not run by or influenced by any government because as soon as a lot of money is involved, corruption seems to rear it's ugly head. A Board should be set up of professional legal people headed by a Judge who's job it is to distribute redress, independent of Government.

Social workers and anyone affiliated with religious orders should not be allowed on this board to minimize the chance of influence. The money must come from both Federal and State Governments and all the churches and charities that have allowed this abuse to happen and have actively conspired to cover up these crimes for decades.

People who have already received some payments and signed confidentiality clauses and a clause to say they won't sue for damages, well these contracts need to be shredded and the laws changed to protect victims and not the other way around. Many people have been forced to pay expensive lawyer fee's and need to have that amount refunded or not included as payment because the churches and charities and governments have taken advantage of weak laws and have deliberately manipulated people to sign these agreements of not to take the cases further in the Courts to save their bottom line.

The Churches, Charities and Governments need to be punished severely financially to put a stop to child abuse in the future.

The level of proof for Redress should come from a Psychologist Report or Psychiatrist Report to minimize the damage to victims.

Claims should be allowed for Child Sexual Abuse, Physical Abuse, Verbal Abuse and Psychological Abuse, False Imprisonment and Torture.

Claims should be allowed for separation of siblings, lying to people about the status of their mothers, fathers, brothers and sisters.

Claims should also be allowed for people who have been Adopted and Fostered and suffered at the hands of these people in a 'psuedo family' setting. Because the Government has created a fake family with natural family feeling, with disastrous consequences for the child.

The amounts of money paid for Child Abuse Redress should be a 3 tiered system

Band 1 \$ 50,000 to \$100,000

Band 2 \$100,000 to \$200,000

Band 3 \$200,000 to \$500,000

The elderly and sick should be paid immediately and psychological counselling should be continued for life if needed, and paid for from the Churches Charities and Governments.

Church and Charity Property Trust laws, like the Ellis Defense, need to be addressed by change of law, to make them be able to be sued, and to pay claims.

The Churches and Charities do not have licence to run Banks, and these laws need to be put in practice to stop them.

Make the Churches and Charities sell their assets or Tax them.

Make them all disclose their cash and assets and confiscate their wealth and force them to pay Redress.

Many victims have failing health because of negligence of decades.

Of not being believed by the Police and Politicians and Courts and Not prosecuting their claims.

These governments Churches and Charities made a fortune on the back of child slave labour and have the capacity to pay.

Penance for this should be a Gold Card for Health Care for life for these people.

Their x-rays of flattened bones, unset broken bones and wear and tear are proof of the terrible circumstances they went through.

A lot of victims cannot read or write.

So the whole process must be simple and easy to apply for over the phone.

It should be open scheme and ongoing, because it takes decades for survivors to have the courage to come forward or to remember the horror of their childhoods.

Many victims are in Prisons living on the streets and some are not aware that they would be eligible for Redress.

So a campaign should be run to seek out these people. which can be done from the Federal Government and State Government Records and Church and Charity Records. They must be subpoenaed and no excuses accepted.

The homeless that have been abused should have Priority Housing immediately in ALL States.

When good men do nothing evil prospers.

Yours sincerely
